EDUCATION

Georgetown University

December 2025

Master of Science, Major: Biostatistics

- **GPA:** 3.7/4.0; **Honors:** Hoyas for Science Scholarship

Washington, D.C.

Relevant Coursework: Epidemiology, Public Health, Statistical Analysis, Statistical Software, Data Science

State University of New York - College of Environmental Science and Forestry

May 2023

Bachelor of Science, Major: Biotechnology; Minor: Environmental Health

Syracuse, NY

- **GPA:** 3.5/4.0; **Honors:** Magna Cum Laude; ESF Honor Society/Alpha Xi Sigma Member; Dean's List- Spring 2021, Spring 2023; Presidential Scholarship

Relevant Coursework: Public Health Management, Public Health Policy, Sustainability, Occupational Health

SKILLS

- **Software and Programming Languages:** R, SAS, Python, SQL, Tableau, Power BI, ArcGIS, Microsoft Office (Word, Excel, PowerPoint)
- **Competencies:** Scientific Communication, Project Management, Scientific Writing, Statistical Analysis, Data Management, Data Visualization, Clinical Research, Public Health Research

EXPERIENCE

VLG Consulting

Jan. 2026 – Present

Consulting Assistant (Temporary, Part-Time)

Remote

- Conducted structured interviews and surveys with patients across multiple countries to gather data on health system experiences and unmet needs in alignment with WHO 2025 resolutions.
- Interpreted WHO resolutions for stakeholders, prepared briefing documents and slides, and facilitated virtual group discussions via Zoom.
- Synthesized qualitative data into actionable, country-specific healthcare system recommendations for a global client.

Georgetown University

Jan. 2025 – Dec. 2025

Student Research Assistant - Master's Practicum Project

Washington, D.C.

- Analyzed longitudinal, multi-center clinical data from the Thinking and Living with Cancer study to examine population-level cognitive health outcomes among breast cancer patients.
- Designed and conducted a simulation study in R and Python to evaluate machine learning and deep-learning imputation methods for missing health data; communicated findings through written reports, data visualizations, and a research poster.

Fairfax County Gov. Department of Public Works and Environmental Services

Jan. 2024 – Aug. 2024

Environmental Technologist I (Limited Term, Full-Time)

Lorton, VA

- Maintained QA/QC-compliant laboratory records and data to support county waste, water, and chemical safety programs protecting community health.
- Managed chemical inventory to ensure safe storage, disposal, and regulatory compliance.
- Assisted with EPA-regulated analytical testing (ICP-OES and semi-volatile extractions) to monitor environmental and wastewater contaminants.

State University of New York - College of Environmental Science and Forestry

Jan. 2022 – May 2023

Student Research Assistant – Toxicology and Immunology

Syracuse, NY

- Analyzed mercury, selenium, and stress hormone data in R to inform understanding of environmental exposures and health risks.
- Synthesized literature and created GIS maps, visualizations, and reports to communicate public health risk trends.
- Developed a scientific poster translating technical findings for public and academic audiences.
- Labeled microscopy images to quantify and identify cells to train an AI model in cell identification.
